

ENGAGEMENT SO FAR CREATING A VISION

Digbeth Vision: Illustrative aerial

In October 2018, Oval and other key landowners in the area, the Gooch Estate and Homes England, set out on an ambitious exercise to develop a strategic vision for Digbeth.

The 'Digbeth Vision' was developed through a number of conversations and workshops with local stakeholders. In February 2019 a number of public exhibitions were held to seek feedback from business and residential communities in and around the area.

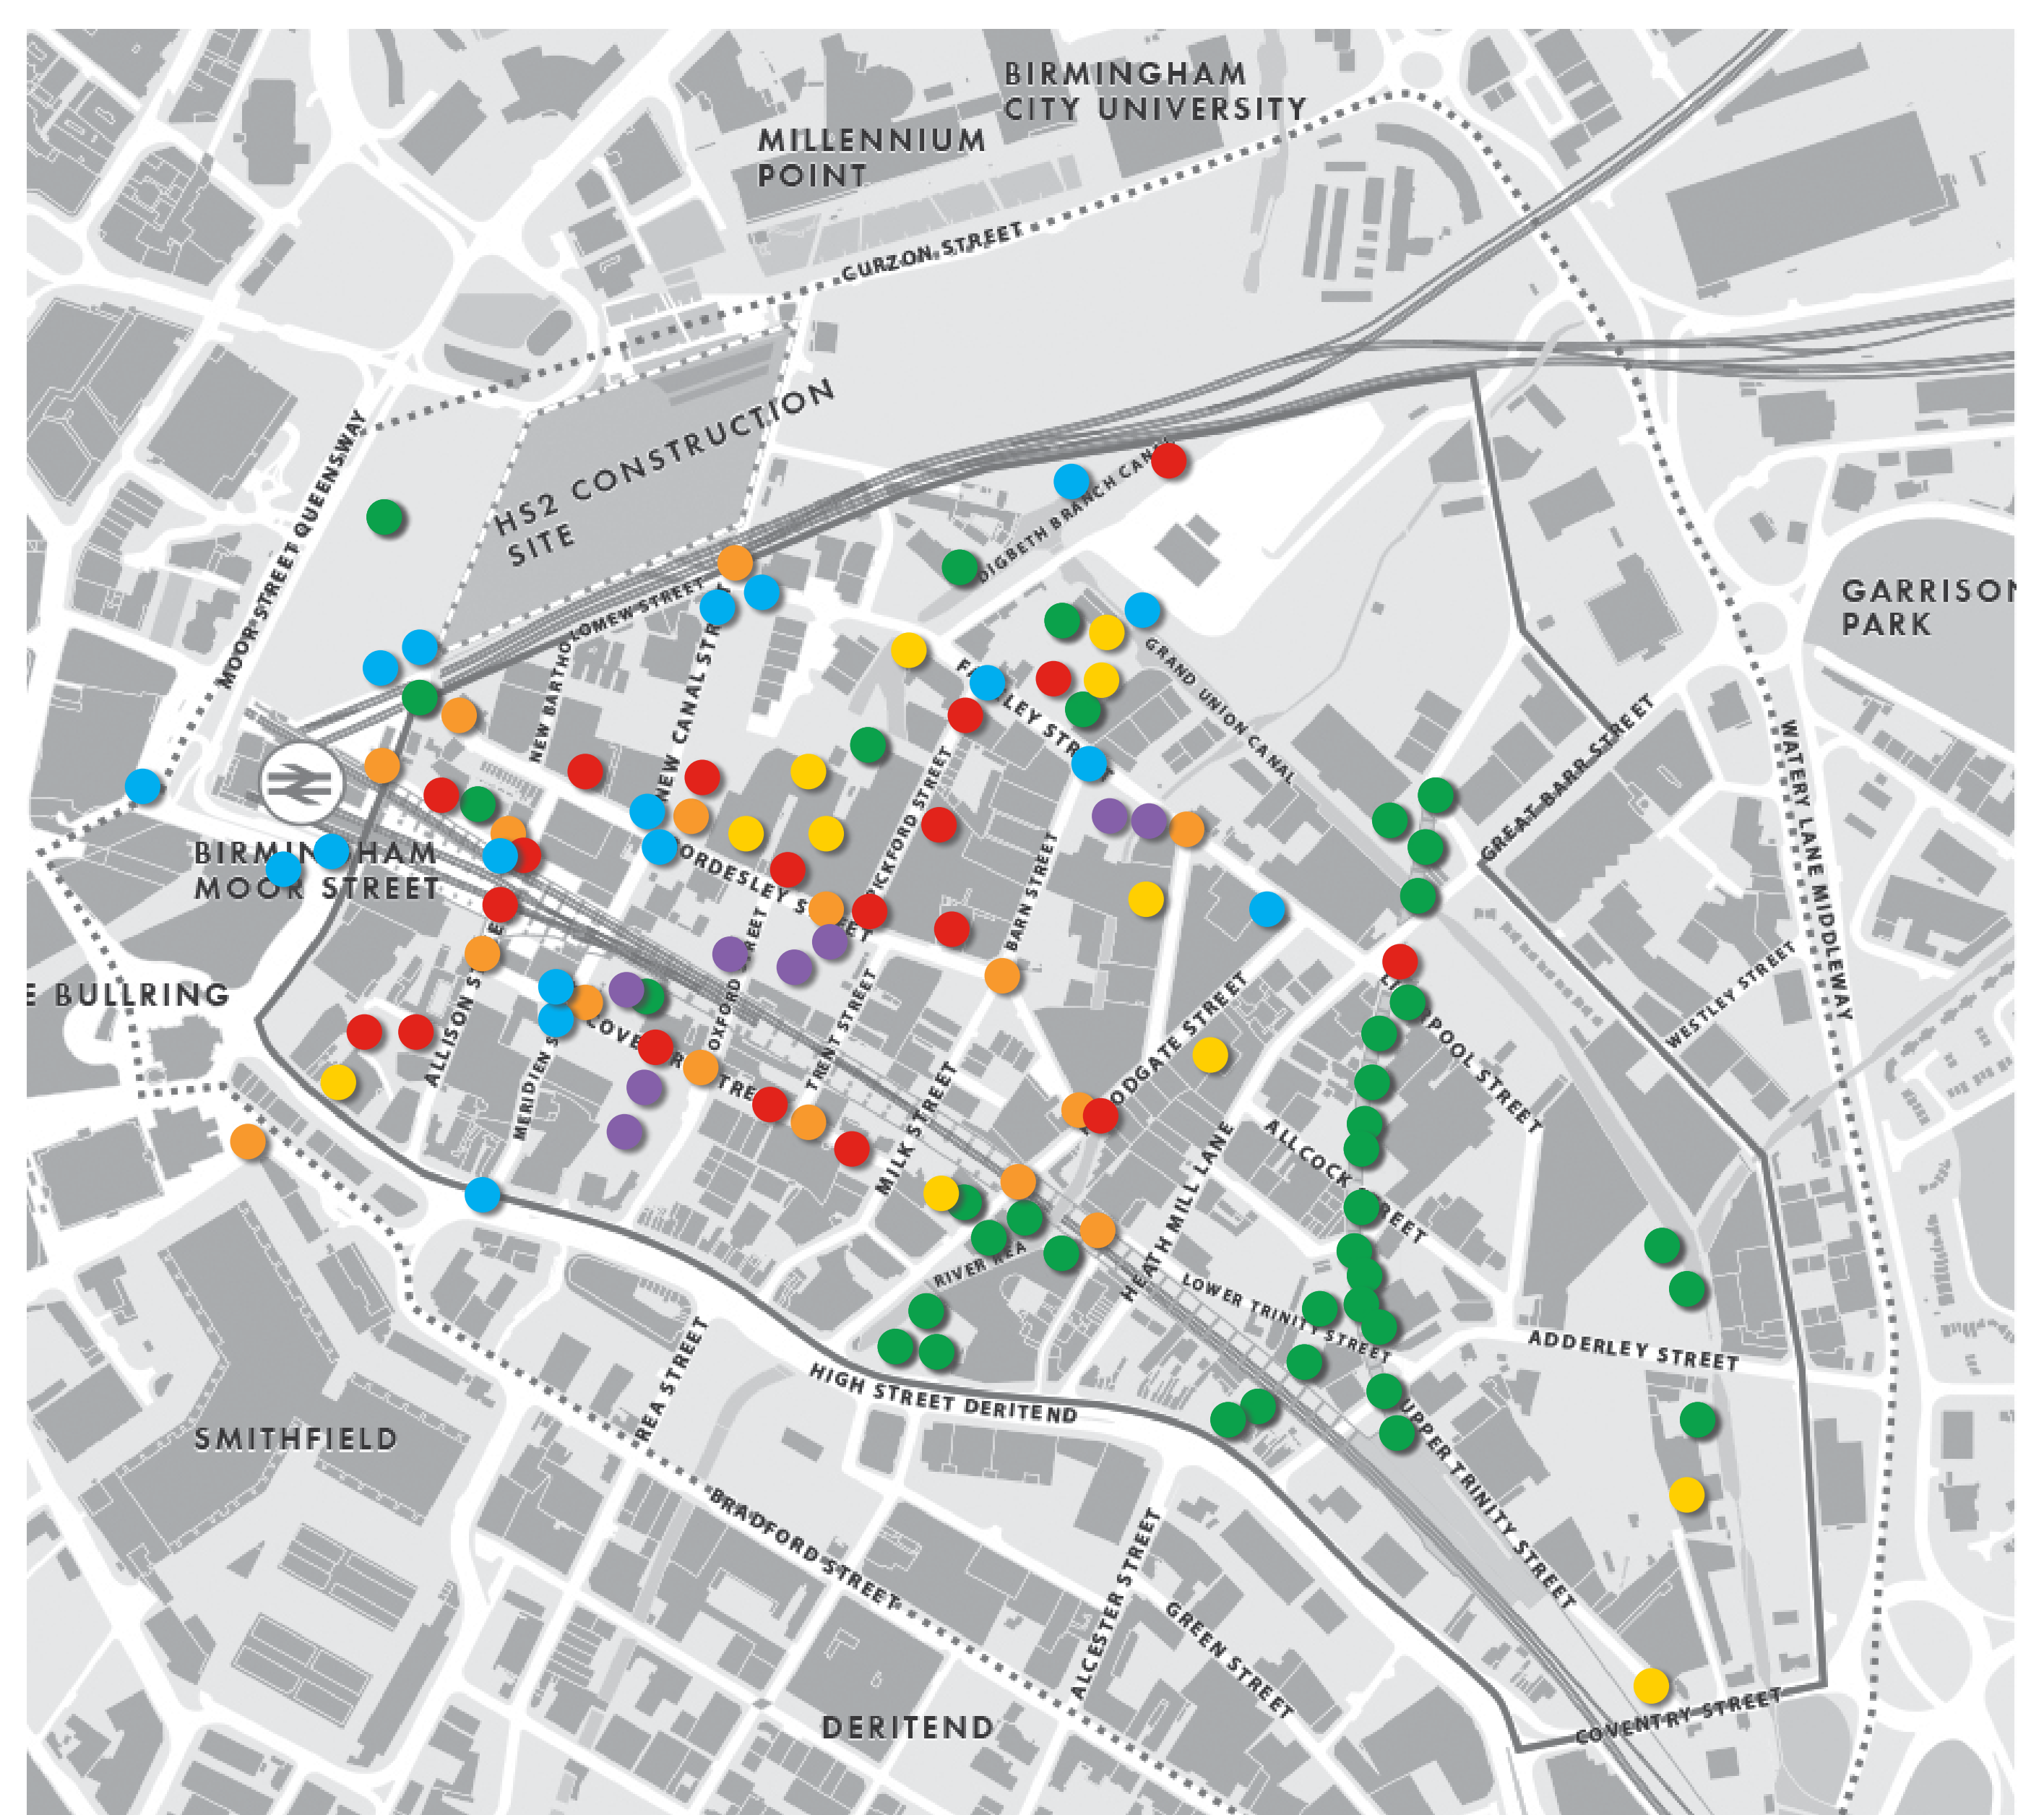

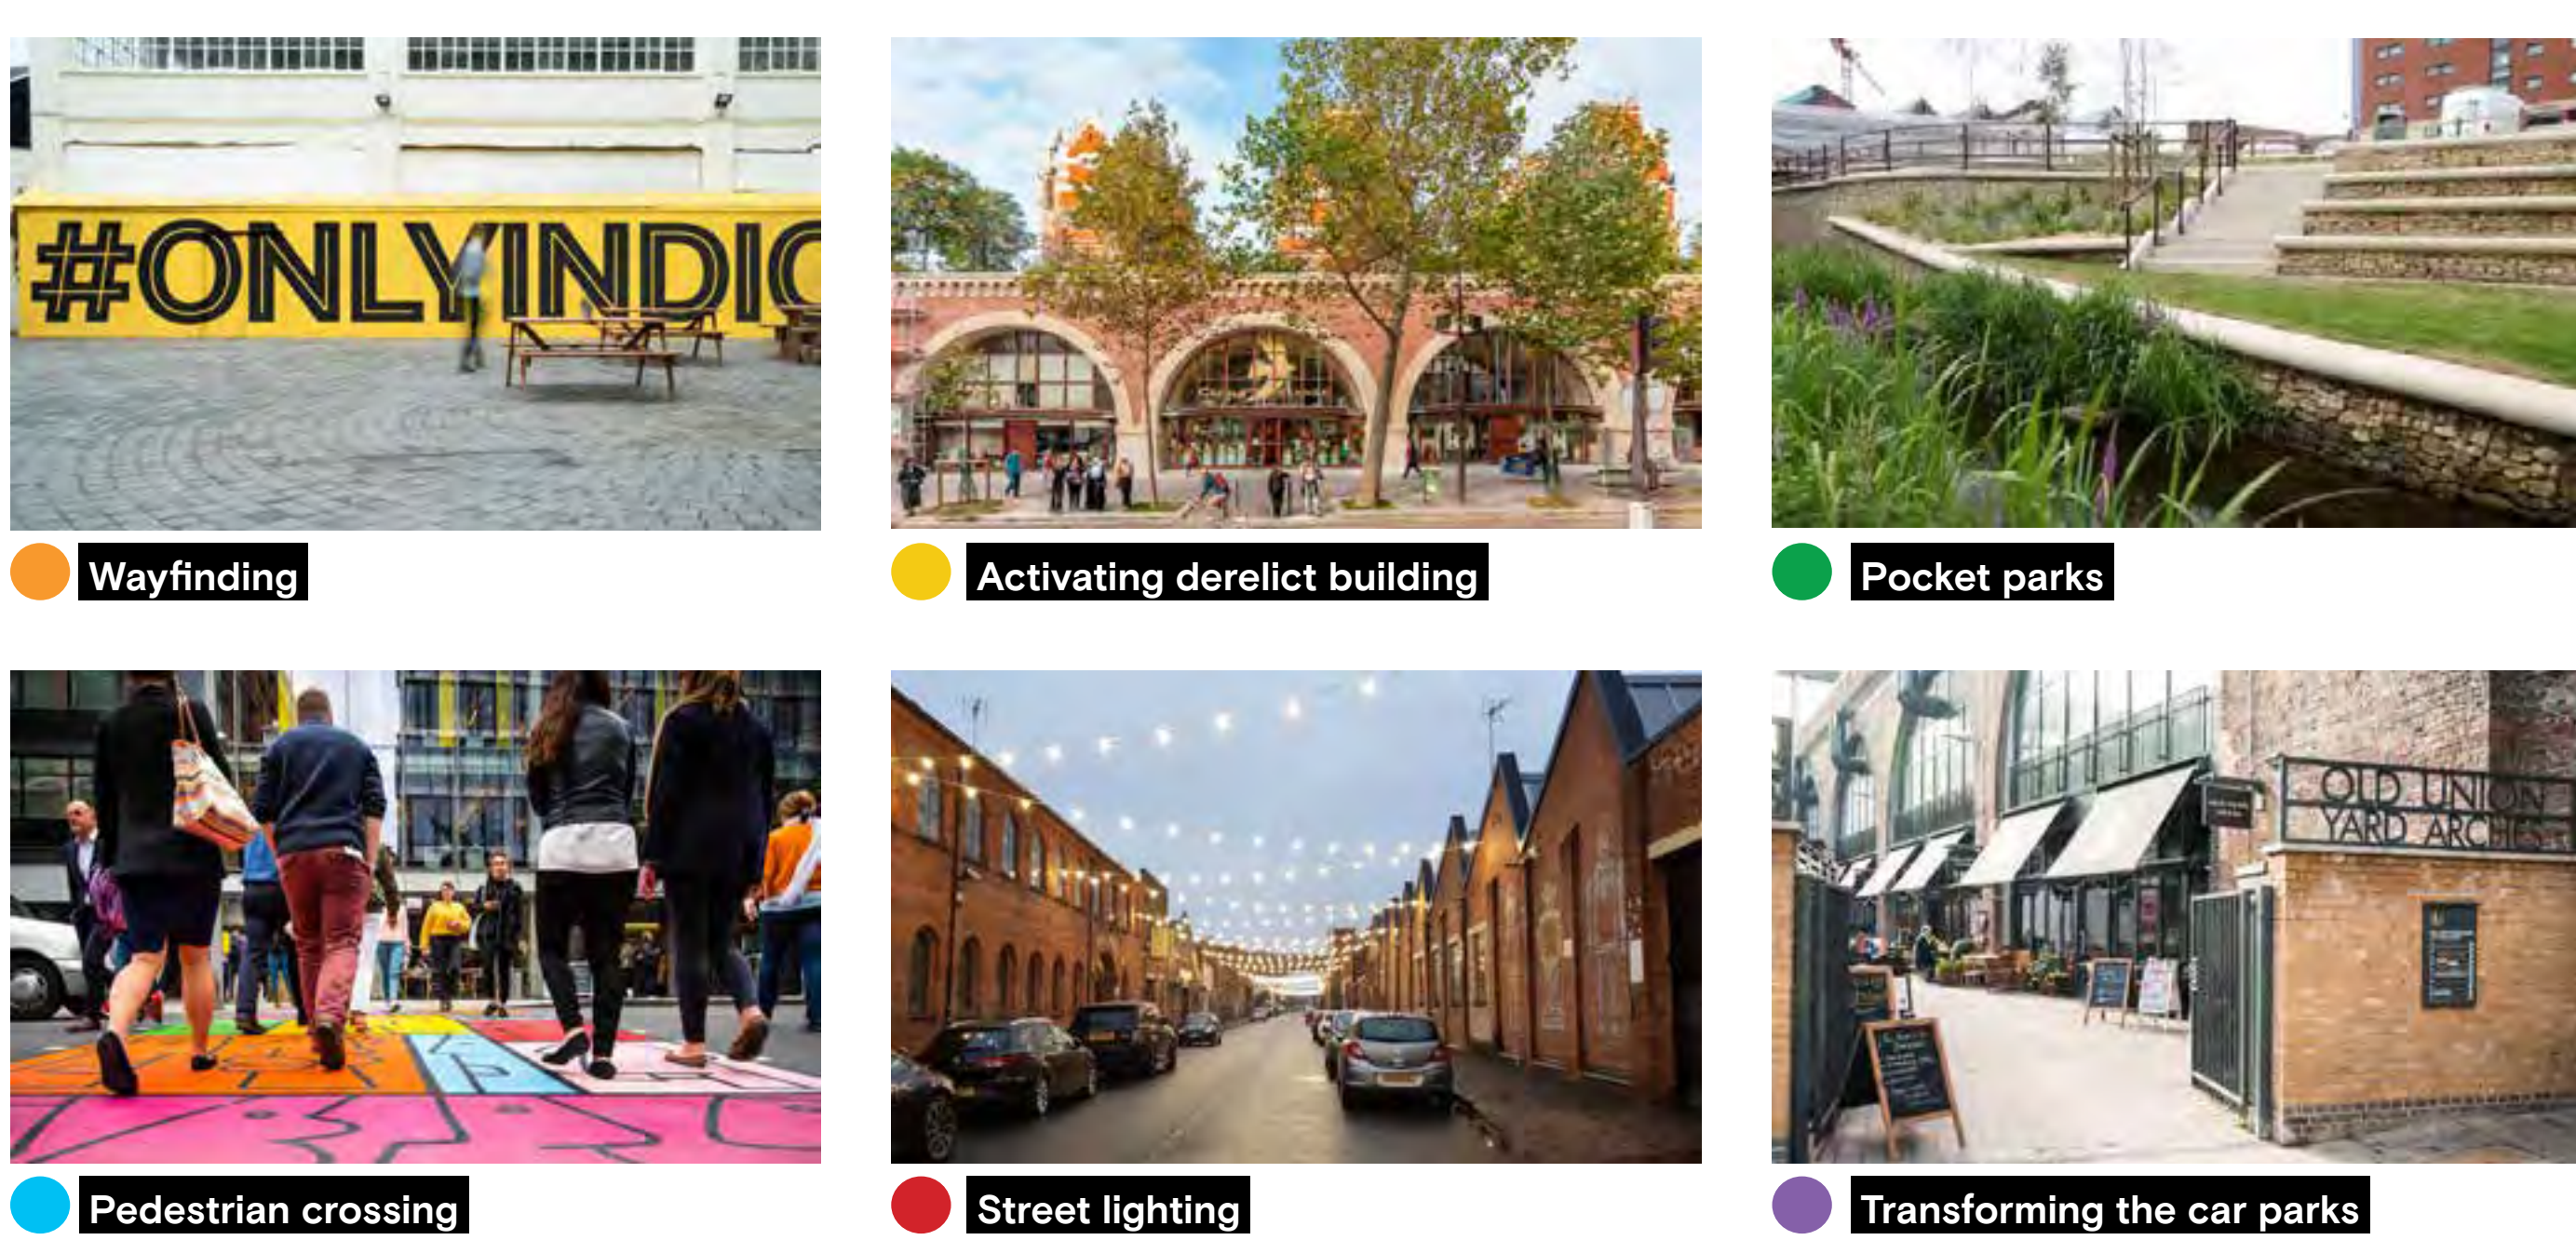

A number of big ideas were generated as part of the 'Digbeth Vision'. These included the revitalisation of the viaducts, to increase use and intensity, to nurture the waterways, to unlock key connections and to appreciate Digbeth's heritage.

Following extensive public consultation the Digbeth Vision was published in June 2019.

We have carefully considered the feedback received during the consultation on the Digbeth Vision to inform our emerging plans.

PUBLIC CONSULTATION FEEDBACK
